Re: Recommendation

It gives me great pleasure to write this recommendation on behalf of Stay Able Baths & Homes, a Certified Aging in Place Specialist Company.

Applying for renovations through the BC Housing's HAFI program was not an easy task. I am very grateful for the team at Stay Able and their representative, Marilyn Lees, for their level of knowledge and expertise in this regard. I was provided with full disclosure of the renovations and adaptations that would comply with the HAFI program, making the process of applying much easier.

We had lengthy discussions regarding safety, accessibility, mobility and what would be in my best interests in maintaining independent living, all of which were the primary concerns for me and my doctor.

Stay Able and Marilyn are a pleasure to work with. They remained cheerful in the face of daunting delays by BC Housing. Their willingness to be ready and available to lend a helping hand when needed was refreshing. Rarely do you come across a company and team who are talented at both big picture ideas and executing the smallest details. Stay Able is just such a company. Thank you for all your help and patience.

If you are a senior in need of renovations and adaptations for independent living, be it through the government or simply on your own, I highly recommend Stay Able Baths & Homes, a Certified Aging in Place Specialist Company.

Yours truly,

Cheryl-Anne Priest
